### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Fincham on 11/19/09.

The application has been amended as follows:

In Claim 1, Line 16, delete [[designed to exert]], replace with "configured to exert".

In Claim 29, Lines 16-17, delete [[deigned to exert]], replace with "configured to exert".

Claims 1-9, 11-24, and 29-45 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art generally teaches a medical fluid transfer assembly comprising a slidable piston for displacing fluid, but fails to teach a system wherein the fluid transfer device comprises a longitudinally slidable fluid transfer conduit that is controlled by a biasing member.

The closest prior art of record is Genese (US 4,180,070) and Arnissolle (US 6,746,438), which both teach a fluid transfer device having a slidable piston. Neither Genese nor Arnissolle, or any other devices in the art, teach "a biasing member mounted within the second conduit and being designed to exert pressure on the conduit when said conduit is in the activated position." The spring serves to automatically retract the needle back to the unactivated position once fluid transfer is complete ([0070] of applicant's PGPub). The prior art devices have needles that are *integrally connected to the hub and piston*, and therefore are not compatible with this type of spring. Specifically, using a biasing spring with the Genese or Arnissolle devices, the piston and hub would have to be moved in addition to the conduit, thereby causing fluid flow during retraction of the needle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phil Wiest whose telephone number is (571)272-3235. The examiner can normally be reached on 8:30am-5pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tatyana Zalukaeva can be reached on (571) 272-1115. The fax phone
